Fillmore, Utah 84631

Subject: Approval of the Large Mining Operations and Form and Amount of Reclamation Surety, Red Dome Inc., Red Dome Mine, M0270032, Task ID# 1520, Millard County, Utah

Dear Mr. Anderson:

The 30 day public comment period ended on December 9, 2006 and no substantive comments were received. The Division now permits you to mine within the framework described below. Since no plan was approved the permit is in a noncompliance operational status.

In lieu of an approved Notice, the Red Dome mining operations and reclamation are required to:

- Adhere to the operational and reclamation practices described in the R647-4 mineral rules
- Comply with requirements of the Bureau of Land Management
- Limit operations to the current 53 acre disturbed area as shown on the attached map;
- Not construct any additional facilities; and
- Place and maintain t-posts around the perimeter of the disturbed area, as shown on the attached map.

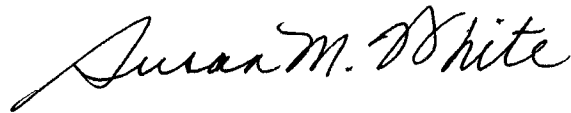

The surety will be reviewed periodically to assure that the bond remains adequate.

If in the future, you wish to modify your operations you will be required to get a mining and reclamation plan approved prior to implementing the modification.
